

GOALS CHECK-IN PART II

After learning about different creative processes and ways to organize your thoughts, which methods work best for you? (Business Model Canvas, Mind Map, Vision Board, other)

Graduating from the Academy and earning your certificate means creating submissions for an entrepreneurship competition. You can do this on your own, or in a group that includes up to 5 people. Consider your circumstances and think about whether or not you would like to form a team with other Academy students.

Do you plan to form a team or work alone? Team Solo

If you chose to work on a team, who are your team members?

Consider each of them team members above. What are their strengths? They can refer back to the Strengths and Weaknesses Worksheet from Part I. Add a strength next to each person listed in your team above.

Example: John Jones – Public Speaking

After completing the Problem-Solving Worksheet, take a look at the Global and Commercial Space problems that you made note of and began to develop solutions for. Think critically about whether you would like to use one of these as the basis for your Academy Competition Submissions. Reconsider how these issues could be solved by a business in the Commercial Space Industry. *If you are working as a team, look at everyone's identified problems for the Global and Commercial Space sections. Narrow it down to 2-3 that are most feasible, relate to your passions, and would make interesting competition submissions.*

Problem	Scope	Reason It's Interesting	Possible Solutions
<i>There is a growing number of refugees due to the climate crisis.</i>	<i>Global</i>	<i>I want to study environmental science in college.</i>	<ul style="list-style-type: none"><i>Provide resources for refugees in the US</i><i>Create app that promotes vegetarian diet (reduce CO2)</i>

DON'T WORRY, THESE CAN CHANGE AS YOU PROGRESS THROUGH THE COURSE! THROUGHOUT PART 3 HOWEVER, IT IS USEFUL TO HAVE AN IDEA IN MIND WHILE YOU COMPLETE THE ASSIGNMENTS. AT THE END OF EACH SECTION, YOU WILL REASSESS YOUR COMPETITION IDEA AND REFINE IT.
